In re-imagining modern education, our vision is to create a safe inspiring space, cultivate happy lifelong learners, build character and nurture humble leaders with the values of service while delivering academic excellence and fostering a global perspective.'

MISSION

To create a safe learning space where we develop not just exceptional students, but happy children.

To provide students with a challenging educational environment within an international community, focusing on a global curriculum, integrated with technology, and a plethora of extracurricular activities to meet students' individual needs. With an objective to ensure a conducive environment, we have dedicated a sprawling campus spread over an area of 10 acres comprising state of art infrastructure and world class facilities.

**To adopt and promote the UN Sustainable Development Goal 4- Quality Education
To pursue quality as an attitude and strive to develop students with rational thinking based on a strong foundation of ethics and moral values, build on the proven success of Indian education, while assimilating developments of the modern scientific world in our curriculum.**

Our Mentor

Dr. Priyanka Mehta
Director Principal

An eminent educationist with over 25 years of experience in the field of education. She has been widely appreciated for her work in the field and has been honored with several awards and recognitions. She firmly believes in creating value for society through nurturing and empowering young minds, leading them to become aware, responsible and ethical human beings who believe in strong values and relations in the modern world.

A totally peoples' person, she enjoys being with children and learns from their experiences, joys, and failures. Spirituality and values are very close to her heart and she believes that strong roots of values and culture strengthen character and ensure righteousness. She inspires as a fine blend of tradition and modernity, where Love for the motherland settles the soul and modernity of thought liberates the mind to think, innovate and create.

Her guiding lines are, "One day we are all going to be a memory....we must truly try to be a good one. The smiles on the faces of my students, as they express their love and trust, encourage me to work for them and give purpose to my life. I am driven by their faith and love. Their never-ending support pushes me further and allows me to be me. I keep reminding myself to be a learner and seek means and ways to enrich myself.

I am forever inspired by the lines:

"Life is short, break the rules, forgive quickly, kiss slowly, love truly, laugh uncontrollably, and never regret anything that made you smile."

Twenty years from now you will be more disappointed by the things you didn't do than by the ones you did. So throw off the bowlines. Sail away from the safe harbor. Catch the trade winds in your sails... Explore. Dream. Discover....."

FIRELESS COOKING

Cooking is like painting or writing a song. Just as there are only so many notes or colors, there are only so many flavours - it's how you combine them that sets you apart. Cooking is the most interesting activity that anyone can be involved in. It entangles both the mind and body and gives us an amazing product in the end. Hence, our tiny Sarvottamites have proved yet again that they are wonderful chefs With this Fireless Cooking Activity!

TEACHER'S CORNER

HAPPY TEACHERS CREATE HAPPY CLASSROOM

As teachers, we are the greatest influence on our students during the school day. We know this. And we hope that they learn that success is more than grades and test scores. We hope that they learn success is about more than just academic performance.

Success is about the way we move through life. Success, in the end, is about our happiness, prosperity, and positive impact on those around us.

We as teachers need to teach children that success is also about happiness. Here are some 5 way to do so:

1. **Providing support - Creating a support network can help to build happiness in the classroom. From friends, family and the adults within the school, children soon realise that they have important people to turn to when they need them.**
2. **Celebrating Achievement and Success- Celebrating individual and group achievements can do much to enhance the happiness in your classroom**
3. **Teaching Self-Confidence- Confidence can increase happiness, but it's not something we're all naturally born with. A happy classroom embraces this journey and provides opportunities for children to learn this skill in their own time, with the support of those around them.**
4. **Building Positive Relationships- Having positive relationships with peers and adults within the school can do much when creating a happy classroom.**
5. **Developing Coping Skills- Life isn't fair. Decisions and situations rise up and are out of our immediate control. Children (and adults) can find this one of life's toughest lessons. What is in our control, however, is how we cope and react when times get tough. In order to feel happy, we need to feel in control.**
