Grade Pre- Nursery to II

VISION

In re-imagining modern education, our vision is to create a safe inspiring space, cultivate happy lifelong learners, build character and nurture humble leaders with the values of service while delivering academic excellence and fostering a global perspective.'

MISSION

To create a safe learning space where we develop not just exceptional students, but happy children.

To provide students with a challenging educational environment within an international community, focusing on a global curriculum, integrated with technology, and a plethora of extracurricular activities to meet students' individual needs. With an objective to ensure a conducive environment, we have dedicated a sprawling campus spread over an area of 10 acres comprising state of art infrastructure and world class facilities.

To adopt and promote the UN Sustainable Development Goal 4- Quality Education

To pursue quality as an attitude and strive to develop students with rational thinking based on a strong foundation of ethics and moral values, build on the proven success of Indian education, while assimilating developments of the modern scientific world in our curriculum.

Our Mentor

Dr. Priyanka Mehta
Director Principal

An eminent educationist with over 25 years of experience in the field of education. She has been widely appreciated for her work in the field and has been honored with several awards and recognitions. She firmly believes in creating value for society through nurturing and empowering young minds, leading them to become aware, responsible and ethical human beings who believe in strong values and relations in the modern world.

A totally peoples' person, she enjoys being with children and learns from their experiences, joys, and failures. Spirituality and values are very close to her heart and she believes that strong roots of values and culture strengthen character and ensure righteousness. She inspires as a fine blend of tradition and modernity, where Love for the motherland settles the soul and modernity of thought liberates the mind to think, innovate and create.

Her guiding lines are, "One day we are all going to be a memory....we must truly try to be a good one. The smiles on the faces of my students, as they express their love and trust, encourage me to work for them and give purpose to my life. I am driven by their faith and love. Their never-ending support pushes me further and allows me to be me. I keep reminding myself to be a learner and seek means and ways to enrich myself."

I am forever inspired by the lines:

"Life is short, break the rules, forgive quickly, kiss slowly, love truly, laugh uncontrollably, and never regret anything that made you smile."

Twenty years from now you will be more disappointed by the things you didn't do than by the ones you did. So throw off the bowlines. Sail away from the safe harbor. Catch the trade winds in your sails... Explore. Dream. Discover....."

Learning Beyond Boundaries

These are extremely testing times for all of us. But as it is said- Tough times last, but tough people last longer...

We shall all fight this together and emerge victorious.

We are therefore, inclined to bring the school inside the comfort of your homes.

These new ways will certainly open up new opportunities for the students and for us.

Happy Learning to all!!!

Safe Hands Challenge

The little ones at Sarvottam proudly accepted the WHO's #SafeHandsChallenge! to raise awareness on tackling the coronavirus pandemic.

Nevertheless, the students were taught to be careful to turn off the tap while they scrub their hands as saving resources is equally important as fighting the virus.

SCIENCE EXPERIMENT

Always a step ahead in creating experiential learning, the young Sarvottamites challenged the unknown by asking the question 'WHY' Science is fun. It is more fun when learnt by doing. Grade 2 joins the curious brigade with their little experiments & presentations.

These are carefully picked topics that connect subjects across the curriculum. Students proudly showcased their new discoveries through videos shared with teachers!!

REUSING THE WASTE

In today's world recycling has a very important place. There are a lot of things around that are labelled as dump. But the irony is that most of the dump collected is useful for others if recycled.

Hence utilising the best from unwanted things, the students prepared beautiful candles at home by using waste crayons.

Teacher's Corner...

Importance of Phonemic Awareness...

Phonics are essential for children to become successful readers in the early years of schooling and beyond. Phonemic awareness helps children to learn the relationship between the writing alphabets and their sounds. Phonics involve the relationship between words and their spellings. If we consider building a house as an analogy, understanding text is the complete home and single word reading ability is the structural frame of the house. And phonics is the foundation of that framework.

Thus it is important to empower young learners with phonics... letter-sound knowledge, that is the foundation needed to build upon reading and writing skills in the early years. It plays a key role in helping students to comprehend text. It helps the students to map sounds into spellings, thus enabling them to decode words. Decoding words aids in the development of word recognition, which in turn increases reading fluency.
