From Principal's Desk...

Dr. Priyanka Mehta
Director Principal

An eminent educationist with over 25 years of experience in the field of education. She has been widely appreciated for her work in the field and has been honored with several awards and recognitions. She firmly believes in creating value for society through nurturing and empowering young minds, leading them to become aware, responsible and ethical human beings who believe in strong values and relations in the modern world.

A totally peoples' person, she enjoys being with children and learns from their experiences, joys, and failures. Spirituality and values are very close to her heart and she believes that strong roots of values and culture strengthen character and ensure righteousness. She inspires as a fine blend of tradition and modernity, where Love for the motherland settles the soul and modernity of thought liberates the mind to think, innovate and create.

Her guiding lines are, "One day we are all going to be a memory....we must truly try to be a good one. The smiles on the faces of my students, as they express their love and trust, encourage me to work for them and give purpose to my life. I am driven by their faith and love. Their never-ending support pushes me further and allows me to be me. I keep reminding myself to be a learner and seek means and ways to enrich myself.

I am forever inspired by the lines:

"Life is short, break the rules, forgive quickly, kiss slowly, love truly, laugh uncontrollably, and never regret anything that made you smile."

Twenty years from now you will be more disappointed by the things you didn't do than by the ones you did. So throw off the bowlines. Sail away from the safe harbor. Catch the trade winds in your sails... Explore. Dream. Discover....."

Innocence is a treasure... Let's preserve it...

Childhood memories carve your soul; they mould your being; their force has an impact greater than other memories.

The force of these memories also suggest that the roles of parents and teachers are ever so vital in the life of a small child; adults should see it as their responsibility to find outlets to create great memories for their children.

Come together let us create the fondest memories for our young learners....

SPECIAL ASSEMBLY TRAFFIC RULES

“Prepare and prevent, don’t repair and repent.” Safety is not automatic, think about it. The word “Rules” is an official statement of what must or must not be done. Thus, the term “Traffic-Rules” provides systematic and controlled measures that a person needs to take on the road for safely reaching his or her destination and Traffic signs or road signs are signs erected at the side of the road or above roads to give instructions or provide information to road users. To understand these rules and signs, Sarvottam International School conducted a special assembly to raise awareness on “Traffic Rules”.

GLOBAL HANDWASHING DAY

Global Handwashing Day is celebrated every year on October 15th, a day dedicated to creating awareness and understanding of handwashing to prevent spread of diseases.

The students of enjoyed a colouring activity and showcased their creativity in designing a soap wrapper choice.

TEACHER'S CORNER

Online Behavioural Management Ideas

During pandemic the main challenge that came in front of educational intuitions is to transform their teaching styles from offline to online modes. In behavioural management setting up right expectation was most important, so from the very initial days we have made students accustomed with Do's and Don'ts of the class along with that rewards and praise concept was also kept in place so that students get an inspiration to follow it.

Another challenge was sense of ownership and keep students engaged, so we gave additional responsibilities to students for instance - Conduct online assembly, Present Thought of the day and Sing National Anthem which made them feel connected and get a sense of Ownership.

We also created a close knit community with students and have also brought a concept of circle time where students can talk freely with their friends on their day's activities which had brought positivity amongst them.

·Give the students choices and ownership of the class. Simple things make a big difference in our classrooms as the tudents feel that we value their opinion and want them to be a part of it. Be positive and encouraging, even in correction.

When a student makes a pronunciation error or a grammatical mistake, try saying, "Good try!" or "Almost got it!" and then do it again with them. Our goal is to encourage them to keep trying and to not be afraid to speak.
